Measurement & Reporting

Do you know how to measure results and improve ROI?

Software training organizations must measure progress, results, and ultimately, the ROI of their customer training spend.

A measurement and reporting strategy is critical to make systematic process improvements.

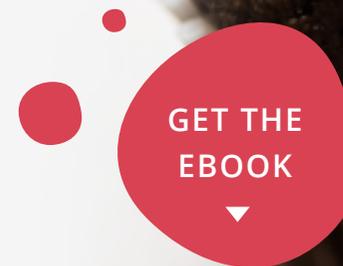

Gather Insights From Software Training Experts

eBook:

The Influencers Guide to Greater Training Efficiency and Profitability in 2019

The goal when we set out to create this publication was to present field-tested ideas regarding how to yield greater results with software training. We reached out to some of the biggest names in training to produce this can't-miss content.

This 27-page eBook is packed with actionable advice from 16 influencers with a track record of driving results in corporate training.

Learn How To Make Your Lessons Stick

Webinar:
Beat the Forgetting Curve with Learning by Doing

Your students are crazy busy, stretched, and possibly even bored. Chances are they're going to forget the important lessons you teach. Is it time to change the way you deliver the content? In this webinar by CloudShare and Learndot, you'll get a close-up look at the keys to success Atlassian discovered and learn how their training dramatically improves student retention.

Invest 60 minutes in watching this invaluable lesson — or flip through the presentation.

Understand How Cloud Solutions Differ

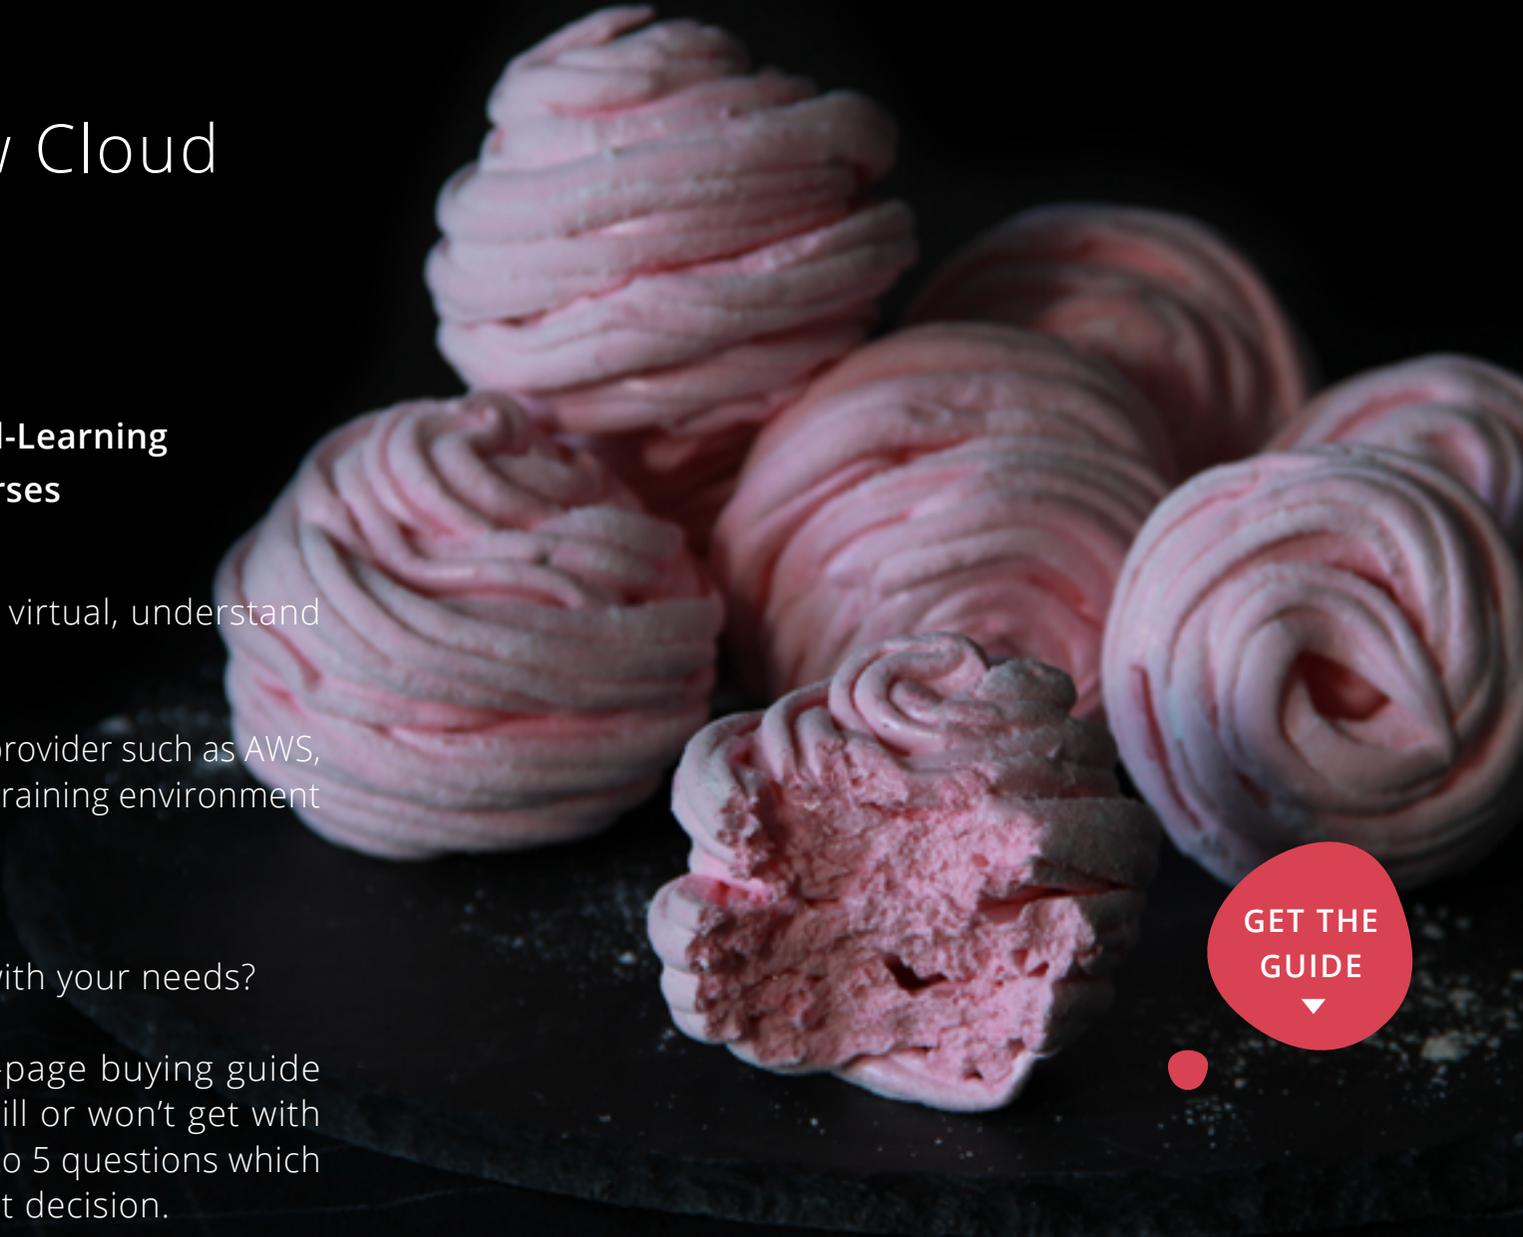

eBook:
How to Choose the Right Cloud-Learning Solution for your Training Courses

While training's gone online and virtual, understand you have two distinct options:

(1) employ a general public cloud-provider such as AWS, or (2) choose a specialized cloud training environment such as CloudShare.

How do they differ?
And which solution best aligns with your needs?

In this information-packed, 15-page buying guide you'll learn what features you will or won't get with your cloud service, and answers to 5 questions which will guide you to making the right decision.
